Office Action Summary

Art Unit: 3743

This application is in condition for allowance except for the below formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the pipes, a security system and the sensors must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Specification

The abstract of the disclosure does not commence on a separate sheet in accordance with 37 CFR 1.52(b)(1). A new abstract of the disclosure is required and must be presented on a separate sheet, apart from any other text.

The disclosure is objected to because of the following informalities: There are a plurality of minor problems throughout the entire specification. For example, on page 3, line 23 “realised” and in the claims “characterised” are misspelled. Appropriate correction is required.

The recitation “a sensor” in claim 19 is indefinite since this recitation has previously been recited.

Art Unit: 3743

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher Atkinson whose telephone number is (703) 308-2603.
